SIH Internal Round 2026 - Guidelines

These guidelines apply to all teams taking part in the institute-level internal round of the Smart India Hackathon 2026 (synthetic document for the CampusPulse AI demo).

The internal round selects the teams that will be nominated to the national round.

1. Team composition

Each team must have exactly 6 members, including at least one female member.

All members must be from the same institute. Inter-college teams are not allowed.

Every team must have one faculty mentor registered on the portal.

2. Idea presentation (PPT)

The PPT must follow the official SIH template. Submissions in any other format will be disqualified.

The deck should have a maximum of 6 slides: problem, solution, architecture, tech stack, impact, team.

Submit the PPT as a PDF file through the internal round form before the deadline announced by the SPOC.

3. Demo round and evaluation

Shortlisted teams present a working prototype in the offline demo round.

Teams must carry their own laptops and chargers to the demo venue.

Evaluation criteria: novelty 30%, feasibility 25%, technical depth 25%, presentation 20%.
